

PowerSchool Mobile App: Setup and Login Procedure

The PowerSchool Mobile App is available for Apple (iOS) and Android devices and requires a **District Code** to connect to our school's server.

Step 1: Download the App

1. Open the **App Store** (iOS/Apple) or **Google Play Store** (Android) on your mobile device.
2. Search for "**PowerSchool**" (it should be the official app from PowerSchool Group LLC).

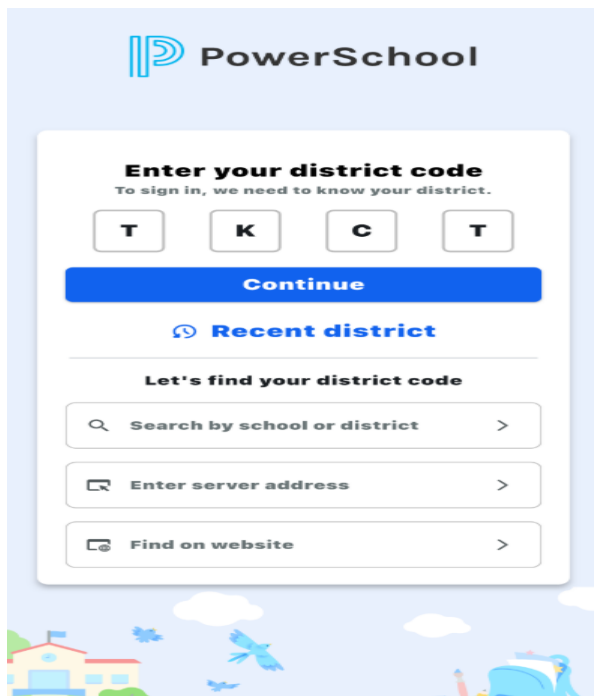

3. Download and install the app.

Step 2: Locate Your District Code

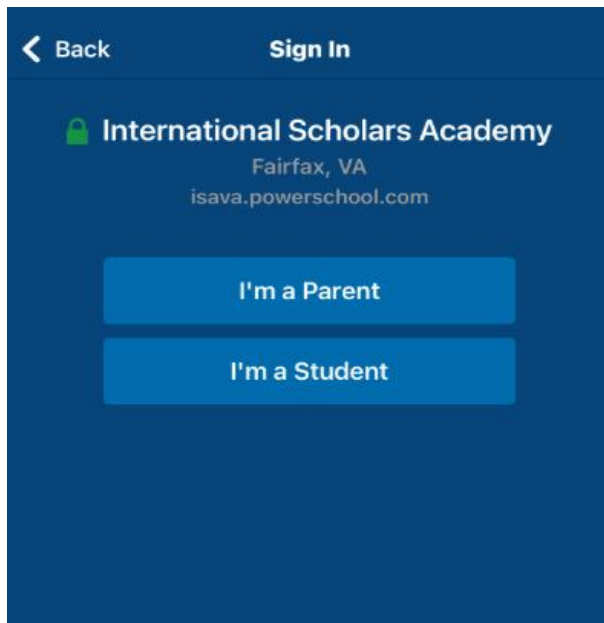

The District Code is **T K C T** that tells the app which school server to connect to.

Step 3: Connect and Log In

1. Open the **PowerSchool Mobile App** on your device.

2. When prompted, enter the **four-character District Code** and click “Continue”
3. The app will connect to our school's sign-in screen and click “I’m a Parent”.

4. Enter your PowerSchool Parent Portal **Username** and **Password** (the same credentials you use for the website).
5. Tap **Sign In**.

You should now be logged into the PowerSchool Mobile App, where you can view your student's real-time grades, attendance, and assignment alerts.

Troubleshooting:

- **"Invalid Username or Password"**: Your login is case-sensitive on the app. Ensure you are entering your username and password **exactly** as you created them on the web portal.
- **"Unable to Connect"**: Double-check the **District Code**. If it's incorrect, the app cannot find our school's server.
- **Need Account Credentials?** If you have not created an account or need a new Access ID/Password, please contact the Portalsupport@isava.org or powerschoolsupport@isava.org
